

EVALGROUP

Research and Evaluation Group

DATA ANALYST

About Us: The Research and Evaluation Group (EvalGroup) is a team of researchers and program evaluators that are dedicated and committed to providing our clients with necessary and valuable data and information to make informed decisions to improve their programs and organization. We provide data-driven analysis to help organizations understand the results of their programs and initiatives—and translate that data into actionable improvements. Our expertise spans a wide range of social impact areas, such as healthcare, social services, community development, educational achievement, arts and culture, and violence prevention. Consulting services provided by our firm include program evaluation, coordination, strategic planning, community engagement, communications, and capacity-building.

Responsibilities:

- Collecting, organizing, and analyzing data per customer requirements
- Gather, extract, manipulate, analyze, and model data using analytical and statistical tools
- Ensure data accuracy and create ad hoc reports.
- Compile, organize and conducted statistical analysis operational data sets to assess performance and efficiency of evaluations

Required Education/Experience:

Required:

- Experience analyzing evaluation data
- Must have at least 2 years of CDC and/or NIH experience
- Must have experience working with federal government contracting
- Must have a PhD or a MD in social science, health sciences, statistical science, and business analytics

Preferred Experience:

- Doctorate in social science or related field; at least four years of data analyst experience
- Creating and following processes to keep data confidential.
- Data science research methods
- Peer-reviewed publications
